PROJECT

- **FABRICATION OF OBSTACLES AVOIDING ROBOTIC VEHICLE :-**
  Obstacle avoidance means of a robot being able to move around in an unknown environment without colliding with surrounding objects

- **PORTFOLIO PROJECT :-**

  I completed a portfolio project where I developed a personal website using HTML, CSS, and JavaScript. The objective of the project was to create an online presence to showcase my skills and experience.

  To achieve this objective, I first designed the layout and user interface using HTML and CSS. I also implemented animations and transitions using CSS to create a visually appealing website.

  Next, I used JavaScript to add interactivity to the website. This project helped me to develop my skills in HTML, CSS, and JavaScript.

  Overall, this project was a valuable learning experience and demonstrated my proficiency in web development using HTML, CSS, and JavaScript.
